Fresh Miles

We are working to help you pay for the miles you actually drive, not an inflated default rate.

- No tracking where you drive,
- No watching when you drive,
- No lurking over how you drive,
- No black box or obscure score,
- No device in your car and no battery drain from tracing your phone.
- Just take a picture of your odometer – your miles, your money. [Verified miles data is your advantage.](#)
